

Pan African University

Vision

The aim of Pan African University is to develop institutions of excellence in science, technology, innovation, social sciences and governance, which would constitute the bedrock for an Africa pool of higher education and research

Mission and Scope of PAU

To realize the strategic vision, six missions have been assigned to the PAU:

- Develop continental-wide and world-class graduate and postgraduate programmes in science, technology, innovation, human and social sciences
- Stimulate collaborative, internationally competitive, cutting-edge fundamental and development oriented research, in areas having a direct bearing on the technical, economic and social development of Africa
- Enhance the mobility of students, lecturers, researchers and administrative staff between African universities to improve on teaching, leadership, and collaborative research
- Contribute to the capacity building of present and future Africa Union stakeholders
- Enhance the attractiveness of African higher education and research institutions for effective development and retention of young African talent, while attracting the best intellectual capital from across the globe, including the African diaspora
- Invigorate dynamic and productive partnership with public and private sectors

Pan African University/Universite Pan Africaine

The advent of the African Union in 2000 as by product of the defunct Organization of African Unity witnessed a rethinking of the Africa's development agenda and strategy, focusing more on the acceleration of the continent's political and economic integration. At the center of new continental priorities is the promotion of research in all fields, in particular science and technology. The Assembly of Heads of State and Government of the African Union therefore made a decision to establish the Pan African University (PAU) in 2010, and on 14 December 2011, the AUC launched PAU as a flagship continental initiative. The University's Statute was adopted by the Assembly in January 2013.

The PAU was inspired and driven by major policy frameworks of the AUC, including the Vision of the African Union, the Second Decade of Education, and the Consolidated Plan of Action for Science and Technology. Within the same policy frameworks, PAU is embedded as a major instrument of the implementation of Agenda 2063, the Science, Technology innovation Strategy for Africa(STISA 2024), the Plan of Action for the Second Decade of Education for Africa which will give way to the African Continental Education Strategy; as well as the African Common Position on post 2015 Sustainable Development Goals.

Mission of the PAU

PAU has the mission to strengthen African Higher education and research, address quality, intra-African collaboration, innovation and links with industry and social sector. PAU is also a response to the quest to produce a critical mass of high quality intellectual capital for Africa, and make African higher education and research attractive, globally competitive, and locally relevant, as well as serve as a model for quality education. PAU is a new generation university constituted from educational and research structures already in operation underlay with the idea of establishing world-class research institutes to provide quality education and research, attract leadership and talent, and promote international cooperation. PAU uses a network of such existing structures of five flagship institutes in critical academic areas addressing Africa's cross-cutting developmental issues, challenges and opportunities, mainly in Governance, regional integration water energy, science and technology, health, agriculture, etc.

PAU Structure and Governance

PAU operates under the direction of the AUC Department of Human Resources, Science and Technology, as one managed by a singular **Rectorate**, with a **Senate** supervised by a **council**. The University focuses on five thematic areas, namely: Basic Sciences, Technology and innovation; Life and Earth Sciences(including Health and Agriculture), Governance, Humanities and Social Sciences; Energy and Water Sciences(including Climate Change); and Space Sciences. The thematic areas are assigned to institute hosted by existing Universities of excellence across Africa's five geographic regions as follows:

- 1. The Institute for Basic Sciences, Technology and Innovation(PAUSTI), hosted by the Jomo Kenyatta University of Agriculture and Technology in Kenya(Eastern Africa)
- 2. The Institute for Life and Earth Sciences(including Health and Agriculture(PAULESI), hosted by the University of Ibadan in Nigeria(Western Africa)
- 3. The Institute for Governance, Humanities and Social Sciences(PAUGHSS), hosted by the University of Yaounde II in Cameroon(Central Africa)
- 4. The Institute for Water and Energy Sciences(including Climate Change(PAUWES) hosted by the University of Tlemcen in Algeria (Northern Africa)
- The Institute for Space Sciences (PAUSS) to be hosted by a University in the republic of South Africa (Southern Africa).

Each PAU institute is headed by a **Director**, Staff of PAU Institutes include **academic** and **administrative staff**, who work within Departments and other units related to teaching, research extension activities and administration. Each of the related Institute has a **Board** which is responsible for the supervision of the academic, administrative, and financial management of the institute.

Administration requirements to Masters of Science programs

An applicant should satisfy any of the following requirements:

- i. Hold a minimum of Upper Second Class Honours of a Bachelors degree in the relevant field from a recognized University.
- ii. Any other qualification considered to be equivalent to(i) by the PAU Institute.

Duration

For regular students, the Master of Science course shall extend over a minimum period of eighteen (18) months (one and half year) and not more than twenty-four(24) months (two years).

Structure

- The Master of Science shall be done by course work, examination and thesis.
- ii. A candidate shall take mandatory core course units and elective course units, as well as participate in seminars and internships if required in the curriculum.
- iii. Except for the science courses, the second year of study shall be devoted to carrying out research, participating in seminars, and presentation of thesis.

General Regulation and Policies

Rules and regulation which apply to all PAU students include student discipline, examination regulations, extenuating circumstances, academic appeals and health and safety policy. Queries relating to the general regulations and procedures affecting students should be directed to the Academic Support Office. Students are expected to display courteous behaviour and discipline at all times.

Matriculation and Orientation

All new students will be required to officially register at specific PAU Institute as part of a mandatory orientation program. A schedule of matriculation and orientation, outlining various activities, will be issued to each student at the time of registration.

Students admitted to various programs at PAU will also be register in each academic year of study at the beginning of the semester. Any student who fails to register will be considered to have withdrawn. Such a student will lose all privileges including the scholarship. It is the responsibility of the student to confirm the exact dates for registration during each year.

FOREWORD

The photo album for the graduating set for the 2018/2019 session represents the sixth cohort of graduating Masters students but the third set of Ph. D students.

This set of graduating students comprises of ten Ph. D students (with five from Environmental Management; one each from Plant Breeding and Reproductive Health Sciences and three from Geosciences (Petroleum and Mineral Exploration options). Country statistics for Ph.D indicates there are three Nigerians; one each for Ghana, Benin Republic, and Ethiopia and four Cameroonians.

There are eighty-one graduating with Masters in the various programmes. A breakdown shows there are ten students graduating from Mineral Exploration and seven Petroleum Geosciences; eleven from Reproductive Health and four Reproductive Biology; nine Plant Breeding; ten from Environmental Management; seven from Avian Medicine and nine from Vaccine Production and Quality Control; six from Medicinal Plant Research and Drug Development and seven students from Sports Management and Policy Development. Countrywise statistics for graduands from Masters shows there are twenty Nigerians which represents the 20% quota for the Host country; one each from Gambia, Togo, Zambia, Democratic Republic of Congo, Guinea, Zimbabwe, Mali and Djibouti; two each from Ghana, Burundi, Uganda, Tanzania, and Liberia; three each from Benin and Cameroon; and five each from Somalia, Rwanda, Ghana, Kenya and Sudan. There are six students from Ethiopia.

It is worthy of note that Veterinary Medicine (Avian Medicine and Vaccine Production and Quality Control options), Medicinal Plant Research and Drug Development and Sports Management and Policy Development are graduating Masters students for the first time. There are no Ph. D programmes yet for the three programmes.

These crops of graduating students have exhibited level headedness with no upheavals during the period of sojourn and interaction in their studies in Nigeria. They have all lived together in their hostels harmoniously and have exhibited maturity in settling differences without recourse to violence or acrimony or rancour. The students have integrated socially and academically. During their stay some of the students have had cause to invite others to their weddings and there have been babies born to some students with the babies being given Nigerian names.

I wish all the graduating students God's speed and brilliant successes in their future endeavours. They should take back to their countries fond memories of their stay and adapt they learn for the betterment of their countries. Special appreciation to African Development Bank (AfDB), African Union Commission and the University of Ibadan for enviable roles they have all played in ensuring the success of these students. Thank you all.

- Name: Romaric Emmanuel OUABO Date of Birth: 10 December 1989
- II.
- Place of Birth: Mbo
- Marital Status: Single
- Nationality: Cameroonian
 Department Contact: Environmental Management

Qualifications

November 2018: Ph.D in Environmental Management at Pan African

University, University of Ibadan, Nigeria.

September 2012: Master in Cartography, GIS and Remote Sensing applied to management of sensitive areas, University of Yaounde I, Yaounde, Cameroon

July 2010: Bachelor in Physical Geography, University of Yaounde I, Yaounde, Cameroon.

Academic/Work experience

September 2019 onwards: Technical Consultant for Capital Investent Ltd. November 2016 onwards: Consultant in Geomatics and Environment for Geosavers. (www.geosavers.com)

August 2016 onwards: Program Manager for Organisation for Research, Protection of Environment and Local Development (ARPEDEL).

June-October 2014: Rainforest Foundation UK and FODER: Facilitator in

the Mapping and Forest Governance project

(www.forest4development.org)

Ouabo Emmanuel, has over five years of experience as an environmentalist and Geomatician working directly on community issues in Cameroon, focused on local development. He is currently the Program Manager of ARPEDEL where he is focused on research, local innovation, environmental issues and capacities building of communities and organizations in the Center, East and West Region in Cameroon. Ouabo holds a master in geomatics from the University of Yaounde I and he is currently a Ph.D holder in Environmental Management at the Pan African University/University of Ibadan where he is focusing on e-waste management and its environmental impacts. Ouabo is driven by his commitment for the achievement of the sustainable development goals and environmental justice. He hopes that one day, local communities can lived a better life with equal opportunities and facilities for all. Upon completion of his Ph.D Program at PAU, OUABO plans to continue his work in local community development with a focus on capacities building of women and youths; and the introduction of smart technologies for local products processing.

B. Agri culture (Crop/Soil Science, First Class) (Usmanu Danfodiyo	2014	
University, Sokoto)		
G : G 1 G1 1G : G (F 1 1 G (G1))	2000	

Senior Secondary School Certificate (Federal Government College, Sokoto) 2008

C. WORK EXPERIENCE WITH DATES

a. Council for Scientific and Graduate Research Assistant at the Rice Section Industrial Research-Crops of CSIR-CRI
Research Institute (CSIR CRI), Kumasi, Ghana

b. Holy Family Secondary School, Sokoto	Agricultural Science Teacher	May – Sept. 2017
c. Success School, Sokoto	Classroom Teacher	Sept 2016 - Dec. 2016
d. Obafemi Awolowo University, Ile-Ife	Nigeria Youth Service Corps (NYSC) with the Department of Agricultural Extension and Rural Sociology	June, 2015 - April, 2016

e. Injiniya Farms, Bakura	Undergraduate Intern	Oct. 2012
LG., Zamfara State		Jan. 2013

D. TITLE OF RESEARCH WORK

SCREENING OF RICE (Oryza sativa L.) GENOTYPES FOR TOLERANCE TO FLOODING DURING GERMINATION AND EARLY SEEDLING ESTABLISHMENT

E. OTHER SKILLS

Statistical data analysis, playing of acoustic guitar

F. LANGUAGE PROFICIENCY

English (fluent), French (Beginner), Hausa (fluent), Yoruba (intermediate) and Twi (Beginner)

M.Sc AVIAN MEDICINE

>>> PAULESI MSc Graduating Class November 2019 <<<

Personal information

- ✓ Name: Mahdi Ali Mahamoud
- ✓ Date of birth: 23th oct 1987
- ✓ Place of birth: Djibouti
- ✓ Gender: Male
- ✓ Marital Status: Married
- ✓ Nationality: Djiboutian
- ✓ Contact department: Department of veterinary medicine

Academic Background:

- ✓ Bachelor of Science in Veterinary Medicine, Khartoum University, Khartoum, Sudan. 2015.
- Secondary School Certificate, Chafia Primary and Secondary School, Djibouti, 2009.

Work Experience:

✓ November 2015 – 2017 Full Lecturer and head of clinical laboratory, Red Sea University, Faculty of veterinary medicine, Galkaio, Somalia.

Key Duties and Responsibilities

- ✓ Teach courses as allocated
- Planning and preparing appropriately the assigned courses and lectures
- Encouraging students for creative thinking and building students ability to work collaboratively with others.
- Preparing handout materials for students and guiding class activities and encouraging debates and discussion on the topics of interest
- Field visit with the students, so the student can tentatively diagnose animal ailments in field level and checking and assessing students' performance and progress.

Title of research work:

Seroprevalence of *Mycoplasma gallisepticum* antibodies in backyard chickens in Benadir region, Somalia

Publications:

- ✓ Hard Tick distribution of Camel in and around Galkaio district, Somalia (Camelus dromedaries, Red Sea University)
- ✓ Evaluation of rational use of veterinary drugs in Mudug region,

Languages Proficiency: Somali, English, Arabic, and basic French

Contact details:

- ✓ Nigerian number: +2347050675585
- ✓ Somali number: +252634885023
- Email: mahdiam142@gmail.com, khadar.mm@hotmail.com
- Physical address Home: Cheick Ali Jowhar Street, Borama, Somalia
- Nigeria: Olutunde Runsewe Hall, University of Ibadan, Oyo state Nigeria.

1. Personal Information

Name: Anuoluwapo Mobolade Bankole

Date of Birth: 5th october, 1988 Place of Birth: Lagos, Nigeria

Gender: female Marital Status: Single Nationality: Nigerian

Contact Department: Avian Medicine

2. Qualifications

M.Sc. Avian Medicine (Pan African University, PAULESI, UI, Nigeria)

DVM. Veterinary Medicine (University of Ibadan, Nigeria)

3. Academic/Work Experience

Avian Diagnostic Lab. specialist (Intern), CHI/ZOETIS alpha diagnostic laboratory Oluyole Ibadan Nigeria. Consulting Veterinary Doctor Rosewell farm Okija, Anambra Nigeria (Intern).

4. Title of research work

The effect of prevalence of avian haemosporidian on haematology and serum biochemical parameters of commercial poultry layer chickens in Ibadan metropolis Oyo State Nigeria

5. Publications

None

6. Other Skills

Driving and writing
Microsoft Office Suite; Appreciable Typing Speed

7. Language proficiency

M.Sc VETERINARY VACCINE PRODUCTION AND QUALITY CONTROL

Personal information

Name: Mohammed Usman **SAJO** Date of birth: 15th July, 1987 Place of birth: Maiduguri, Nigeria

Gender: Male

Marital status: Married Nationality: Nigerian

Contact department: Veterinary Microbiology

Qualifications

MVSc Veterinary Vaccine Production and Quality Control -

Doctor of Veterinary Medicine (DVM) – 2015 Senior Secondary School Certificate – 2007 Primary School Leaving Certificate - 2002

Academic/Work experience

- Consultant at Tahir Farm and Agro-allied Industries Ltd., Kutungare, Airport road, Kaduna, Kaduna state in 2016.
- Served with Gabasawa Veterinary Clinic Ungwan Rimi under Ministry of Agriculture and Forestry Kaduna state from 2016-2017.
- National Winner of Federal Government Youth Entrepreneur Skill Program (Youwin 2017).
- Internship training on Vaccine Production and Quality Control at Laboratoire Central L'levage (LABOCEL), Niamey, Niger in 2018-2019.

Title of research work

"Molecular characterization of Newcastle disease virus from an outbreak in Zaria and live bird market in Kano, Nigeria and phylogenetic analysis of their relatedness with strains of some commercial vaccines"

Publications

-Effect of High Ambient Temperature on Acid-Base Balance in Rats. Final year project, June, 2015.

-The Role of Veterinarians in Preventing Deadly Diseases. Commentary to National Radio Station, 25th April, 2015 (Audio is available).

Other skills

-Well-developed computer skills -Good communication, organization and leadership skills.

Language Proficiency: English, Hausa, Kanuri, and Arabic
